

RE100 APU for Citation Sovereign and XLS

**WORLD-CLASS RELIABILITY, COMPACT DESIGN
AND ENHANCED MISSION PERFORMANCE**

**Advanced Auxiliary Power Unit
Design for Cessna Citation Sovereign
and XLS**

Honeywell

RE100 Auxiliary Power Unit

Enhancing the operational capabilities of the Cessna Citation Sovereign and XLS

The RE100 APU features aircraft self-sufficiency and operational flexibility. Offers exceptional cabin cooling and heating in temperature extremes. Provides independent source of electric power which reduces burden on the main engines and eliminates reliance on ground power. Offers significant fuel savings compared with main engine operation. Overall, lower operating costs with enhanced convenience, comfort and efficiency.

Global Network of Support Services

Honeywell's comprehensive support network, spanning the Americas, Europe, Middle East, Africa, Asia and the South Pacific, delivers fully integrated service solutions and 24/7/365 support to meet the needs of the aerospace industry.

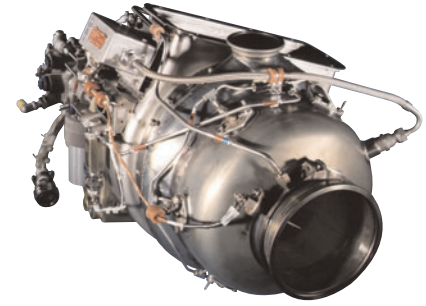

As a world leader of aviation aftermarket services, Honeywell provides the knowledge and resources to take care of all your service needs – whenever and wherever you require maintenance and repair services.

Advantages of the RE100 APU

- Compact Design
- Highly Efficient
- World-Class Reliability
- Enhanced Mission Performance
- Certified for In-flight Operation

Why Honeywell?

- 50 years of auxiliary power experience
- An industry leader in APU integration
- Proven performance – over 70,000 delivered APUs
- Advanced manufacturing, production and materials processes
- Global service and support network

RE100 APU

Key Performance Data

Model:	RE100
Maximum	
Total Weight:	83.25 lbs
Environmental	
Control Unit:	4.5 lbs
Outline:	3800826-1
Basic Spec:	FAA TSO-C77a Category 1
Rated Pad HP:	23 shp
Rated EGT:	1230F
Rotor Speed:	70,200 rpm
