

Capability, flexibility and style
for superior cabin management

Customizable Cabin Controls

Honeywell passenger controls offer a simple, intuitive interface with your Ovation® cabin management system. With the touch of a button, or quick menu scroll, you can take charge of all cabin functions including audio and video distribution, lighting, temperature, galley controls, window shades and more. Ovation cabin controls provide customized programming with simplified field upgrades and repair. Our controls offer a fully customizable look to compliment any interior.

Touchscreen controls

Ovation video touch screens allow passengers and crew to operate galley, cabin and entertainment controls and allow for personal entertainment and information viewing.

- Clear and simple touch control of cabin entertainment and environment
- 10.4" and 6.5" options
- Picture in picture capability allows the user to preview video selections from multiple cabins

Button controls

Ovation button controls provide outstanding cabin control through state-of-the-art membrane-styled panels.

- Up to 32 software definable control buttons
- An optional 8 character LCD to show source selection and switch status
- Customized and removable bezels

Ovation remote control

LCD controls

Ovation LCD control panels show entertainment source selection and status while offering complete cabin control through the use of simplified scrolling menus.

- Flexible menus and functionality without affecting bezel size or wiring
- Individual programming at each location
- Wide viewing angle and sunlight readable reflective LCD for optimum readability
- Customized and removable bezels

Remote controls

Honeywell's Ovation remote controls offer passengers a convenient, user-friendly interface with audio and video equipment as well as environment controls. Our remotes are designed to interface with the cabin management system as well as other consumer electronic equipment and are fully customizable to meet any specific installation requirements.

Video touch screen

OLED control

OLED controllers

Ovation OLED controllers are available for both C Series and E Series cabin system. Utilizing Organic LED displays (OLED) and improved menu structures, the OLED controllers offer:

- Significantly improved contrast ratio and viewing angles compared to traditional LCDs
- More intuitive menu structures that eliminate the risk of getting lost in endless submenus
- Plug-n-play feature allows relocation of controllers throughout the cabin without reassigning database IDs.
- Auto-orientation automatically rotates text 180 degrees depending on seat location
- "Hard-Point" switches provide instant access to key functions like "Read Light" and "Attendant Call"
